* A handicap listed as **NH** means you don't yet have the minimum 5 scores posted to obtain a handicap. Once you've posted 5 scores you'll get a handicap at the next revision date.

Club Handicap Classes

Class A – Handicaps up to 10

Class B – Handicaps 11 to 16

Class C – Handicaps 17 and over

Understanding Handicaps

Handicaps are posted as two numbers, a Handicap Index (the Index column) and a Course Handicap (Handicap column). The second number is NOT a rounding of the first. The Handicap Index is a measurement of a player's potential ability on a course of standard playing difficulty. It is expressed as a number taken to one decimal place. This is the number you carry from course to course as a measure of your potential.

A Course Handicap is the number of handicap strokes a player receives from a specific set of tees at the course being played (the White Tees at Sheridan in this case) to adjust his scoring ability to the level of scratch or 0-handicap golfer. A Course

Handicap is determined by applying the player's USGA Handicap Index to a Course Handicap Table or Course Handicap Formula. A player's Course Handicap is expressed as a whole number of strokes.

So if your handicap is posted above as 12.9 / 14 it means that your handicap index is 12.9 and when you play Sheridan's White Tees (which have a slope rating of 119) you get 14 handicap strokes according to the Course Handicap Table. The number of handicap strokes you receive may vary by course depending on the slope rating of the course and the tees you play.

Remember to Adjust Your Scores Using Equitable Stroke Control Prior to Posting them in the Computer

All scores posted for handicap purposes are subject to the application of the USGA's Equitable Stroke Control (ESC) procedure. This mandatory procedure reduces high hole scores for handicap purposes in order to make handicaps more representative of a player's potential ability.

ESC is used when a player's actual or most likely score exceeds a maximum number, based on the table below, for the player's Course Handicap.

EQUITABLE STROKE CONTROL

<u>COURSE HANDICAP</u>	<u>MAXIMUM NUMBER ON ANY HOLE</u>
9 or less	Double Bogey
10 through 19	7
20 through 29	8
30 through 39	9
40 or more	10

This only applies to scores posted in the handicap computer and NOT to scores you post for a weekly or major tournament.

Example: If you are a 12 handicap and shoot 89 with an 9 on one hole in a weekly tournament round you post 89 for the weekly tournament but must adjust the 9 to a 7 and post 87 in the handicap computer.
